

You can spot them. You've worked with them. Happy kids. Kids with more drive, more dedication, more confidence.

McDonald's<sup>®</sup> believes there should be more of them. Believes that inside every kid there's a tiny voice that whispers, "You can do it."

That's why we support amateur athletics, from the neighborhoods to the Olympics. From sponsoring McDonald's Age Group Swim Meets to building the Olympic Swim Stadium. And we've been doing it since 1957.

Because McDonald's wants more kids to listen to that tiny voice. Give it their best shot. And learn that once they do, they can do almost anything.

> Not just better athletes, better kids.™

# **TECHNICAL RULES**

All competitive swimming events held under Corporate sanction shall be conducted in accordance with the following rules which are designed to protect the swimmer, provide fair and equitable conditions of competition, and promote uniformity in the sport so that no swimmer shall obtain unfair advantage over another.

It is recommended that the LSC and regional short course and long course championships be held annually and that they be conducted under the rules governing national championships (Article 4), subject to available facilities and personnel. Events other than such championships may use Article 4 as a guide, subject to local conditions and preference, but when National Championship rules are to be used in such events, and they differ in any way from the rules in Article 3, such differences must be clearly stated on the entry blank.

All provisions under Part One, the Technical Rules, unless otherwise specified on Page 4, "Major Rules Changes", are effective beginning May 15, 1984, and until changed. Rules in effect on the first day of a meet shall govern throughout that meet.

- (2) Stroke From the beginning of the first armstroke after the start and after each turn, the body shall be kept on the breast and both shoulders shall be in line with the water surface. All movements of the arms shall be simultaneous and in the same horizontal plane without alternating movement. The hands shall be pushed forward together from the breast on or under the surface of the water, and shall be brought back on or under the surface of the water. A part of the head shall always be above the general water level (the surface in a calm state), except that after the start and after each turn, the swimmer may take one arm stroke and one leg kick while wholly submerged. When the hands begin their sideward or downward press, a new stroke shall have been started. Drifting apart of the hands does not constitute an infraction. A wave passing over the head does not constitute a violation.
- (3) Kick—All vertical and lateral movements of the legs shall be simultaneous. The feet must be turned outwards in the backward movement. A flutter kick or downward butterfly kick is not permitted. Breaking the surface with the feet shall not merit disqualification unless followed by a downward butterfly kick.

It is permissible for a shoulder to be dropped and/or the head to be lowered below the water level of the pool after the final arm pull and prior to the touch. A legal touch may be made at, above or below the surface of the water. Once a legal touch has been made the swimmer may turn in any manner desired. The prescribed form must be attained from the beginning of the first arm stroke. This would apply also to the breaststroke leg of the individual medley and the breaststroke leg in the medley relay.
  - (b) Long Course When touching at each turn, the touch shall be made with both hands simultaneously while the body is on the breast. The shoulders shall be in line with the water surface. A legal touch may be made at, above or below the surface of the water. Once a legal touch has been made, the swimmer may turn in any manner desired. The prescribed form must be attained from the beginning of the first arm stroke.
- (5) Finish
  - (a) Short Course On the finish the touch of the solid wall or pad shall be made with both hands simultaneously at the same level while the body is on the breast. The shoulders shall be in line with the water surface. It is permissible for the head to be

lowered below the water level of the pool after the final arm pull and prior to the touch. A legal touch may be made at, above or below the surface of the water.

(b) Long Course — On the finish the touch of the solid wall or pad shall be made with both hands simultaneously at the same level while the body is on the breast. The shoulders shall be in line with the water surface. A legal touch may be made at, above or below the surface of the water.

**Note:** Either complete or incomplete movements of the arms or legs from the starting position shall be considered as one complete stroke or kick.

### **102.2. BUTTERFLY**

- (1) Start-The forward start shall be used.
- (2) Stroke—After the start and turns, a swimmer is permitted one or more leg kicks, but only one arm pull under water, which must bring him to the surface. Both arms must be brought forward together over the water and brought backward simultaneously. The body must be kept perfectly on the breast, and both shoulders in the horizontal plane, from the beginning of the first arm stroke after the start and after each turn.
- (3) Kick—All up and down movements of the legs and feet must be simultaneous. The position of the legs and feet shall not alternate in relation to each other. The use of the scissor or breaststroke kicking movement is not permitted.
- (4) Turns
  - (a) Short Course When touching at each turn the touch shall be made with both hands simultaneously. It is permissible to drop a shoulder after the final arm pull and prior to the touch. A legal touch may be made at, above or below the surface of the water. Once a legal touch has been made the swimmer may turn in any manner desired. The prescribed form must be attained from the beginning of the first arm stroke. This would apply also to the butterfly leg of the individual medley and the butterfly leg of the medley relay.
  - (b) Long Course When touching at each turn the touch shall be made with both hands simultaneously at the same level while the body is on the breast. The shoulders shall be in line with the water surface. A legal touch may be made at, above or below the surface of the water. Once a legal touch has been made the swimmer may turn in any manner desired. The prescribed form must be attained from the beginning of the first arm stroke.
- (5) Finish
  - (a) Short Course On the finish the touch of the solid wall or pad shall be made with both hands simultaneously at the same level while the body is on the breast. The shoulders shall be in line with the water surface. A legal touch may be made at, above or below the surface of the water.

## 102.2(5)(b)

(b) Long Course — On the finish the touch of the solid wall or pad shall be made with both hands simultaneously at the same level while the body is on the breast. The shoulders shall be in line with the water surface. A legal touch may be made at, above or below the surface of the water.

  - (a) Short Course The feet may be placed in any position on the end of the pool, and the swimmer may assume any desired starting position which does not remove either foot completely from the water, nor either foot from contact with the end of the pool, nor either hand from the starting grips, pool edge, or starting block. Subject to the approval of the host facility, a backstroke starting block against which to place the feet may be used, if available to all contestants.
  - (b) Long Course It shall be the starter's duty to see that both the swimmer's feet, including the toes, shall be under the surface of the water, and that no swimmer is standing in or on the gutter, or curling his toes over the lip of the gutter. A backstroke starting block may not be used.
- (2) **Stroke**—The swimmer shall push off on his back and continue swimming on his back throughout the race.
- (3) Turns The swimmer's head, shoulder, foremost hand or arm must touch the end of the course, but the shoulders must not turn over beyond the vertical before the touch is made. It is permissible to turn the shoulders beyond the vertical after the touch, but the swimmer must have returned to a position where the shoulders are at or past the vertical toward the back before the feet have left the wall.
- (4) **Finish**—The swimmer shall have finished the race when any part of his person touches the solid wall or pad at the end of the pool.

### 102.4. FREESTYLE

- (1) Start-The forward start shall be used.
- (2) Stroke Freestyle means that in an event so designated the swimmer may swim any style; except that in a medley relay or individual medley event, freestyle means any style other than butterfly, breaststroke or backstroke.
- (3) Turns—In freestyle competition the hand touch is not required at the turn; it is sufficient if any part of the swimmer touches the solid wall or pad at the end of the pool or course.
- (4) **Finish**—The swimmer shall have finished the race when any part of his person touches the solid wall or pad at the end of the pool.

**102.5. INDIVIDUAL MEDLEY**—The swimmer shall swim the prescribed distance in the following order: the first one-fourth, butterfly; the second one-fourth, backstroke; the third one-fourth, breaststroke; and the last one-fourth, freestyle.

  - (b) Backstroke to breaststroke—once a legal touch has been made the swimmer may turn in any manner desired. The shoulders must be at or past the vertical toward the breast when the feet leave the wall. The prescribed stroke form must be attained prior to the first arm stroke.
  - (c) Breaststroke to freestyle once a legal touch has been made the swimmer may turn in any manner desired.
- (3) **Finish**—The swimmer shall have finished the race when any part of his person touches the solid wall or pad at the end of the pool.

- (h) When the first swimmer on a relay completes his leg in accordance with the rules of the stroke and unless his team is disqualified for some action on his part, his split time, if recorded in accordance with 108.2(4)(a), may be considered for an official time. If recorded in accordance with 108.2(4)(a) or 103.15(4) this time may also be considered for LSC and local records, and if recorded in accordance with 108.2(3), (4) and (5) it may be considered for any other record purpose.

First and second alternates shall be announced along with the final qualifiers. These alternates shall not be penalized if unavailable to compete in the finals.
- (c) Where consolation finals have not yet been swum and a barring or withdrawal is known to the Referee, the Referee shall reseed the consolation final and the final, if necessary, to insert the alternate(s) in the appropriate lane(s), filling all lanes in the final.

Failure to do so will result in each individual member of that relay team being barred from the next relay event in which those members may otherwise be eligible to compete, either that day or the next meet day, whichever is first.
- (b) A relay team member failing to appear ready to swim for said relay event shall be barred from the next individual event in which he is entered, either that day or the next meet day. #### 103.7. LANE ASSIGNMENTS-SEEDING-COUNTERS

(1) Preliminary Heats When Finals are Scheduled — In order to assure seeded positions, the best competitive times of all entries must be submitted. These times shall be assembled (listed) by the meet committee with the fastest man first and the slowest man last. Swimmers whose submitted times are identical should be assigned places in the list by draw. Swimmers with no submitted times shall be considered the slowest and shall be placed at the end of the list by draw. Swimmers shall be placed in lanes under procedure outlined for finals seeding in 103.7(3). Swimmers shall be placed in heats according to submitted times in the following manner

#### (a) Fewer than three heats

- If one heat, it may be seeded as a final heat and swum only during the final session, at the Referee's discretion.
- (ii) If two heats, the fastest swimmer shall be seeded in the second heat, next fastest in the first heat, next fastest in the second heat, next in the first heat, next in the second heat, next in the first heat, etc.
- (b) Three heats The fastest swimmer shall be placed in the third heat, next fastest in the second, next in the first. The fourth fastest swimmer shall be placed in the third heat, the fifth in the second heat, and the sixth fastest in the first heat, the seventh fastest in the third heat, etc.
- (c) Four heats or more The last three heats of an event shall be seeded in accordance with (b) above. The heat preceding the last three heats shall consist of the next fastest swimmers; the

heat preceding the last four heats shall consist of the next fastest swimmers, etc. Lanes shall be assigned in descending order of submitted times within each heat, in accordance with the pattern outlined in 103.7(3).

- (d) Exception—When there are two or more heats in an event, there shall be a minimum of three swimmers seeded into any one preliminary heat, but subsequent scratches may reduce the number of swimmers in such heat to less than three.
- (2) Swim-Offs-In preliminary heats, in no case may a swimmer with a faster time displace another who placed ahead of him within a heat according to the ballot system. If this situation results in disputed qualifications, all swimmers having times tied or within the disputed times shall swim an elimination (swim-off) to qualify for the disputed place or places in the final. The swim-off will be swum with three watches and two judges on each of the swimmers' lanes and the ballot system or modified ballot system shall be used to determine the order of finish, except when automatic officiating equipment is used and is properly functioning. The official time for the swimmers involved shall be the time set in the original preliminary heat. This elimination may be held at any time set by the Referee, but not more than 45 minutes after the last heat of any event in which any one of these swimmers is competing in that session. Should all swimmers in a swim-off be disqualified for rules infractions as outlined in 103.12, the lane or lanes must be left open during the finals.

**Note:** It shall be the swimmer's responsibility to acquaint himself with all information pertaining to swim-offs, final events and the participants therein.

(3) Finals—In finals, the times to be considered are those times made in preliminary heats. If any qualifying swimmers have the same time their respective lanes shall be determined by draw. Lane assignments shall be made in descending order of qualifying times according to lanes as follows:

10	9	8	7	6	5	4	3	2	1	LANE NUMBER
			- Nore	ACIO	5	3	1	2	4	5 LANES
N. Level and				6	4	2	1	3	5	6 LANES
			7	5	3	1	2	4	6	7 LANES
		8	6	4	2	1	3	5	7	8 LANES
1948	9	7	5	3	1	2	4	6	8	9 LANES
10	8	6	4	2	1	3	5	7	9	10 LANES
	2.155									IU LANLO

Lane 1 shall be on the swimmer's right when he faces the pool. Note: See 103.4(3) for scratches.

#### (4) Timed Finals

(a) Heats — In order to assure seeded positions, the best competitive times of all entries must be submitted. The last heat shall be composed of the swimmers with the fastest submitted times, the next to last heat composed of the next fastest swimmers, etc. Lanes shall be assigned in descending order of submitted times within each heat, in accordance with the pattern outlined in (3) above. When there are two or more heats there shall be a minimum of three swimmers or relay teams seeded into the first heat. The last heat should be a full heat, but the requirement of seeding three swimmers or relay teams into the first heat may result in failure to fill the last heat.

(b) Places—In timed finals, places shall be determined on a time basis, subject to the order of finish within each heat and based upon the ranking system used at the meet. Any ties resulting from the procedure used shall be declared officially tied for awards and points, with no further attempt at resolution.

- (a) A swimmer in any individual swimming event of 400 yards or meters or more, except the individual medley, may appoint one counter to call lengths or indicate lengths by visual sign.
- (b) Verbal counters shall be limited to one per swimmer, shall be stationed at the end of the course opposite the starting end, and may not coach or aid the swimmer in any way except that they may use watches and signal intermediate times to the swimmer.
- (c) If visual counters are used, they may be stationed at the end or either side of the pool, beyond the halfway point toward the end of the course opposite the starting end. Visual counters may be lowered into the water at the end of the swimmer's lane, provided that, in the opinion of the Referee, they neither physically aid the swimmer or interfere with another competitor or present any safety hazard.
- (d) The count may be in ascending or descending order.
- (e) In the event of official or counter error it is the responsibility of the swimmer to complete the prescribed distance.

**103.8. OFFICIAL TIME**—Official time for any individual swimming event can be achieved only in the relevant stroke/event; i.e., backstroke time must be achieved in a backstroke event. Time achieved in a freestyle event can only be recorded as freestyle time regardless of the stroke used.

- (6) Ties—Where two or more swimmers tie for any place in any event the points credited to such place or places, if any, next in order shall be equally divided between such swimmers; i.e., if two tie for first place, the points to be credited to first place and the points to be credited to second place shall be added and divided one-half and one-half. If three tie for first place, the points credited to first, second and third places shall be added and divided one-third, onethird and one-third, and so on for four or more tying for first place. The same is true for those tying for second place, third place, and whatever places there may be.
- (7) Disqualifications When a relay team or individual swimmer is disqualified, the following places will move up accordingly and points awarded to conform to the new places. Consolation finalists may not receive championship final placing. Alternates may not receive consolation final placing.

If mailed, such notice must be postmarked no later than the entry deadline date stated on entry blank, and if lack of time prohibits mail notification, each affected swimmer must voluntarily agree in writing that he or she has been notified and is in accord with such change. Any affected swimmer or his coach may and should file a written protest with the Referee prior to running of event or meet if they do not agree to such change in time or date.

#### (3) Postponement or Cancellation

(a) If, prior to its commencement, unusual or severe weather conditions preclude the possibility of safely and effectively conducting a meet, the meet committee may cancel or postpone it.

## 103.11(3)(b)

- (b) Should a meet have actually commenced, and in the judgment of the Referee cannot safely and effectively continue because of unusual or severe weather conditions, or for some other compelling reason, the Referee, in his sole discretion, may suspend the meet or any particular event until conditions warrant continuance. If circumstances do not warrant continuance, the Referee may cancel the meet or postpone it to a future date or time, with the approval of the meet committee.
- (c) A decision to cancel or postpone shall be final.
- (d) Entry fees for teams or swimmers may be refunded, in whole or part, at the discretion of the meet committee, upon cancellation of a meet or particular event. - (9) Should a foul endanger the chance of success of a swimmer, the Referee may allow him to swim in the next round, or should the foul occur in the final he may order it re-swum. In case of collusion to foul another swimmer, the Referee may, at his discretion, disqualify the swimmer for whose aid the foul was committed, as well as the swimmer doing the fouling.
- (10) Coaches having entrants in any event on the program shall not be allowed in the immediate starting area of swimming pools, which must be clearly marked, during the progress of any competition. Upon being apprised of a violation of this rule, it shall be the duty of the Referee to remove, or have such offender removed, immediately. Coaching of swimmers during the progress of an event shall not be permitted. It shall be permissible for coaches or others to signal intermediate times to a swimmer during competition, and this shall not be considered as "coaching".
- (11) No swimmer is permitted to wear or use any device or substance to help his speed or buoyancy during a race. Goggles can be worn, and rubdown oil applied if not considered excessive by the Referee.
- (12) For relay disqualifications, refer to 102.6(3).

The meet committee shall immediately refer such protest to the review section having jurisdiction for adjudication at the earliest possible time.
- (3) Protests against judgment decisions of starters, stroke, turn, place and relay takeoff judges can only be considered by the Referee of the meet, who has the authority to disqualify swimmers for any violation of the rules that he personally observes.
- (4) Any other protest arising from the competition itself shall be made within 30 minutes after the race in which the alleged infraction took place. If the protest is not resolved immediately the protestor shall at that time file a written protest with the chairman of the LSC, or his representative, having jurisdiction over the event. If the LSC does not satisfactorily resolve the protest within ten (10) days, the protester may appeal in writing to the National Rules Chairman, within the next five (5) days, for final adjudication which shall then be binding on all parties.

(g) Starting rules may be modified by the Referee to adapt them for handicapped swimmers.

# 103.17(1)

**Note:** If an electronic horn start and underwater sound recall device are available, they may replace the gun start and recall device herein.

- (2) The Short Course Start
  - (a) On receiving clearance from the Referee, (for all events except backstroke and medley relay) directs swimmers to step onto the starting block or platform and assume a position with at least one foot at the front of the block before the command "take your mark". Refer to 102.3(1)(a) for backstroke start.
  - (b) Directs swimmers to "take your mark", to which they must respond at once by assuming a starting position. Sufficient time should follow the direction to "take your mark" to enable swimmers to assume a starting position, but no swimmer shall be in motion immediately before the starting signal is given.
  - (c) When all swimmers are motionless in starting position, gives starting signal.
  - (d) If, in his opinion, a false start has been committed, the starter shall give a signal to recall the swimmers. With the concurrence of the Deck Referee, the false start shall be called on the individual(s). Any swimmer who commits or causes a false start shall be disqualified and shall not be permitted to swim the event. This rule shall not apply to U.S. Swimming international events or to the Trials for Pan American, World Championship or Olympic teams, where current FINA false start rules shall apply.

#### (3) The Long Course Start

- (a) On receiving clearance signal from Referee, (for all events except backstroke and medley relay) directs swimmers to step onto the back surface of the starting block or platform and remain there, assuming an upright position. Refer to 102.3(1)(b) for the backstroke start.
- (b) Directs swimmers to "take your mark", to which they must immediately respond by assuming a starting position at the front of the starting block. The feet may be placed in any desired position. - (c) When all swimmers are motionless in starting position, gives starting signal.
- (d) If, in his opinion, a false start has been committed, the starter shall give a signal to recall the swimmers. With the concurrence of the Deck Referee, the false start shall be called on the individual(s). for any other misconduct taking place at the start, can be disqualified from the event by the starter with the concurrence of the Referee. Such disqualification shall not be a false start.

- (5) False Starts
  - (a) A swimmer who unnecessarily delays in assuming and holding a completely motionless starting position after the command "take your mark" shall be charged with a false start.
  - (b) All swimmers leaving their marks before the starting signal is given shall be charged with a false start, except that the starter may, at his discretion, relieve a swimmer who has false started because of the action or movement of another competitor, of the responsibility for the false start and charge it only to the offender. (Note exception for "Deliberate Delay or Misconduct.")
  - (c) When a swimmer false starts before the starting signal is given, the starter shall immediately release all other swimmers with the command "Stand Up". Any swimmer so released may stand up or step off the block. Any swimmer who enters the water (or backstroker who leaves the starting area) shall be charged with a false start, except that the starter may relieve a swimmer who would otherwise be charged with a false start if the starter believes that it was caused by the swimmer's reaction to the command.
  - (d) When the starting signal is given and one or more swimmers have obtained an unfair advantage, all swimmers shall be recalled at once by a second signal. The starter shall then indicate the swimmer(s), if any, to be charged with a false start.
  - (e) In backstroke or medley relay the starter may charge a false start to any swimmer who fails to maintain his feet and/or hands in a legal position after the first warning.

- (6) Warning Signal In all events 400 yards or meters or longer except the individual medley and relays, he shall sound a warning signal as near to the leading swimmer as possible when he has two lengths plus five yards (or meters) to swim to finish.

RECALL STARTER**—When using automatic officiating equipment which is started by the starter's gun, either the starter or an assigned recall starter shall immediately discharge a gun or other loud sound device if the automatic equipment is not properly functioning on the starting report or if a false start has been called. The position of the recall starter shall be made known to the swimmers. He may also be

assigned to assist the starter in any desired manner. A recall starter is mandatory in United States Swimming Championships.

**103.19. JUDGES**—Shall have jurisdiction over the swimmers immediately after the race has begun.

- (1) Chief—Assignment as chief of any judging category is subject to the discretion of the committee charged with officiating assignments. An overall "Chief Judge" may assign and supervise the activities of all stroke, turn, place and take-off judges and may report their decisions, or if desired any judging category may have a designated "Chief". Any "Chief" may act as liaison for his judges and may himself serve simultaneously in one of the judging positions and he shall assign those judges within his category.
- (2) Lane Place Judge—It is not the responsibility of the lane place judge to determine if the finish touch meets the requirements of the appropriate stroke rule.
  - (a) Two lane place judges shall be stationed at the finish of each lane. Each shall activate a separate switch recording the finish of their lane swimmer, and each recorded impulse shall constitute their placement ballot. If only one such recorded placement decision per lane is possible with the available equipment, either a visual judge shall be assigned to each lane or an across-the-board place judge shall be assigned to provide the second ballot decision.
- (3) Across-the-Board Place Judge—When limited personnel prevents assignment of lane place judges, two across-the-board judges, one on each side of the course, can be stationed near the finish and each shall judge the order of finish of all swimmers. Should both agree on all lanes, that shall be the official placement. If they disagree, the Modified Ballot System 103.23(2) shall prevail. An across-the-board judge may record a tie if a place distinction cannot be made. He shall award each swimmer the highest place that may have been attained.
- (4) Stroke Judge Shall operate on both sides of the pool, preferably walking abreast of the swimmers during all strokes except freestyle, during which events they may leave poolside, at the Referee's discretion; shall ensure that the rules relating to the style of swimming designated for the event are being observed; and shall report any violations to the Referee on signed slips detailing the event, the heat number, the lane number, the swimmer's name and the infraction.
- (5) Turn Judge Shall operate on both ends of the pool; shall ensure that when turning or finishing the swimmer complies with the turning and finishing rules applicable to the stroke used; and shall report any violations to the Referee on signed slips detailing the event, the heat number, lane number, the swimmer's name and infraction observed.
- (6) Jurisdiction of Stroke and Turn Judges—Before the competition begins the Referee shall determine the respective areas of stroke

and turn responsibility and jurisdiction, which may include joint, concurrent, and coordinated responsibility and jurisdiction. The Referee shall insure that all swimmers shall have fair, equitable, and uniform conditions of judging.

(7) Relay Take-Off Judge—Shall station himself (after the first swimmer) alongside the starting swimmer so that he can clearly see both the touch of the incoming swimmer and the feet of the departing swimmer as they leave the starting platform, and he shall judge whether the swimmer is in contact with the platform when the incoming swimmer touches the end of the pool.

When automatic relay take-off judging equipment is available and in use, take-off judges will be assigned to each lane and stationed as described above. A team will only be disqualified when there is dual confirmation of an illegal take-off (i.e., visual and automatic equipment).

(8) Infraction Signal—Upon observing an infraction within his jurisdiction, the Referee, stroke, turn, or relay take-off judge shall immediately raise one hand overhead with open palm. If the official does not do so, there shall be no penalty.

**Note:** Does not apply to relay take-off judges in national championships.

**103.20. TIMERS**—In any race not timed with automatic or semiautomatic equipment (as provided in 103.24) the time for each competitor shall be taken by three timers stationed at or close to the finish. Each timer operates a manual watch (i.e., any hand-held mechanical or electronic timing device) that is both started and stopped by the timer as described below. These three timers are the official lane timers and their times must be individually recorded to determine the official time on the lane. Alternate or chief timers may substitute for an official lane timer only in the event of failure of a watch or its operator. No official lane **timer may simultaneously determine time and place under any circumstances.** 

- (1) Chief Timer
  - (a) Assignment of official lane timers to their lanes shall be subject to the direction of the chief timer.
  - (b) The chief timer shall be responsible for delivery to the recorders of all official times as recorded by the head lane timers, including the times of disqualified swimmers.
- (2) Head Lane Timer—The chief timer designates one timer on each lane as the head lane timer. The head lane timer shall be responsible for the following
  - (a) Determination that the proper swimmer is in his lane.
  - (b) Determination of and recording of all manual watch times.
  - (c) Assignment of one timer to take relay splits, and initial distance times.
  - (d) Determination of and reporting if the swimmer has delayed in touching or has missed the finish touch pad of an automatic timing device.

# 103.20(3)

- (3) **Official Lane Timers**—The three timers shall be placed directly over their assigned lane at the finish.
  - (a) Each timer shall look at the starter's gun and start his watch at the instant of the flash or smoke. If an electronic sounding device is used, the watch shall be started by the flash of a strobe light, when available, or by sound.
  - (b) All watches shall be stopped immediately when in the opinion of the timer any part of the swimmer's body touches the solid end of the pool or course.
  - (c) Unless explicitly authorized by the chief judge under 103.18(5), it is not the responsibility of the lane timer to judge if the finish touch meets the requirements of the appropriate stroke finish rule.
  - (d) All lane timers shall promptly report their times to the head lane timer or the designated recorder; present their watches for inspection, if requested, and shall not clear them until given the "clear watches" by the Referee.
  - (e) The time of each watch is recorded on the lane timer's card, and the official time established as described below.
  - (f) Split times may be taken during a race by one of the lane timers upon request of the chief timer. The split hand (or function button) shall be stopped when any part of the swimmer's body touches the solid end of the pool or course. Split times shall be recorded on the lane timer's card.
  - (g) For LSC and local records only, unless prohibited by the LSC, the Referee, if requested for the purposes of recording a record attempt at an initial distance for an individual event or for the lead-off leg of a relay, may for any lane
    - (i) Permit the use of the split function button of digital manual watches where all three official lane timers on the lane are using digital watches with split function, or
    - (ii) Assign three (3) additional official timers to the lane to time the record attempt.

Performances in this category require the swimmer(s) to complete the full distance of the scheduled event. No time recorded by a mechanical split hand can be used for records.

- (4) Alternate Timer—There shall be at least one alternate timer who shall start his watch on every race with the starting signal, and whose time shall be used only to substitute in the event of failure of an official lane timer's watch or its operator.
- (5) Watch Reading When reading a dial watch it is to be held so that the hand of the watch is in a 12 o'clock position. When the hand is not exactly centered on a mark, it shall be considered to be in the space between the marks and the reading shall be that of the following mark.
  - (a) If all manual watches on all lanes provide digital displays to a resolution of 0.01 seconds the times shall be recorded as displayed to the hundredths of a second.

38

- (b) If the manual timing in any lane is by a mixture of dial and digital watches, the dial watches shall be read as described above and the time on the digital watches in all lanes shall be rounded up to the next full tenth whenever there is onehundredth or more. (Example: 51.11 is recorded as 51.20.)
- (6) Official Time Determination Following proper watch reading and recording as described above for each lane:
  - (a) If the times of two of the three watches agree, that time shall be the official time.
  - (b) If all three watches disagree, the time of the intermediate watch shall be the official time.
  - (c) If, because of the failure of a watch or its operator, times from only two watches are available, the official time shall be the average of those two watches. When dial watches are in use and the times rounded to the next slowest tenth as described in (5)(b), the official time shall be the average of those two watches in hundredths of a second. When the watches are read to the hundredth of a second, as described in (5)(a), any average resulting in thousandths of a second shall be rounded up to the next slowest hundredth of a second.
  - (d) If the official time is registered in tenths of a second, a zero shall be added and the official time recorded in hundredths of a second (two decimal places) for all purposes. (Example: 56.4 is recorded 56.40.)

### 103.21. CLERK OF COURSE

- (1) The clerk of course shall be provided with an area clearly marked "Clerk of Course" where all swimmers must report as soon as their event is called.
- (2) He shall be provided with a list of the names of all swimmers in all events including relay swimmers in the order in which they will swim.
- (3) All scratches which have occurred after the printing of the heat sheet shall be reported to the clerk of course and he shall notify the Referee and scoring desk in writing of the failure of any swimmer to report.
- (4) He shall notify each swimmer to wait behind or adjacent to the starting position until the starter takes over control of the race and if they leave the area it will be their responsibility to return in time for their heat or event.

**103.22. MARSHALS**—Shall have full police charge of the immediate starting area, the sides of the course and the finish. They shall take positions as instructed by the Referee and maintain stillness in the rear of the starting platform, and at each start prevent spectators or swimmers from crowding in on the course. They shall maintain order among competitors, spectators, officials, and coaches and shall have authority to remove from the vicinity of the competition anyone using profane or abusive language, or whose actions are disrupting the orderly conduct of the meet.

**103.23. SCORERS**—Shall receive from the recorders the order of finish in timed finals, or consolation finals and championship finals for each event. They shall compile team and high-point scores as applicable.

- (1) Ballot System
  - (a) In any race not timed with automatic officiating equipment (as provided in 103.24), the combined duties of the lane place judges and the lane timers shall be to determine placement and official times of the swimmers. Two lane-place judges and three timers shall be assigned to each lane.
  - (b) The chief judge shall be responsible for delivery of the lane place judge's cards to the scoring table where the scorers record the appropriate ballot value, including the ballots of disqualified swimmers, on the basis of one for first place selection, two for second, three for third, four for fourth, five for fifth, six for sixth, seven for seventh, eight for eighth. There are two sets of lane place judges and thus two ballots per lane for place.
  - (c) The chief timer shall be responsible for delivery of all the official times (including the time of disqualified swimmers) to the scorers who shall list them in numerical order beginning with the fastest official time per lane. This is for the purpose of assigning ballot values to each lane time. The fastest lane receives a ballot value of 1, the next fastest a value of 2, etc. For identical times, equal ballot values are recorded, with the same progressive numerical assignment; i.e., swimmers A,B,C, record identical time of 58.47 while swimmer D records time 59.05. Swimmers A,B,C, receive ballot values of 1 and swimmer D a value of 2. Should swimmers E and F (same race) have identical times of 60.00 they would each be assigned ballot values of 3, and continuing in this manner.
  - (d) The scorers shall then eliminate disqualified swimmers and determine the order of finish of all swimmers in any heat or final event by adding the numerical value of three ballots for each lane. The lane (swimmer) having the lowest numerical total shall be declared the winner, the second lowest shall be second, etc. If these totals result in a tie for any place in a final race, no further attempt shall be made to resolve the tie.
  - (e) In preliminary heats, in no case may a swimmer with a faster time displace another who placed ahead of him within a heat according to the ballot system. If this situation results in disputed qualifications, the swimmers tied with or within the disputed times shall swim off the event within 45 minutes after the last heat or any event in which any one of the swimmers is competing in that session. The ballot system must be used to determine the qualifier(s) for the finals except when completely automatic officating equipment is used and is properly functioning. The official time for the qualifier shall be the time set in the original preliminary heat.

- (2) Modified Ballot System When two across-the-board place judges are used instead of lane place judges:
  - (a) Value will be assigned to each time and place decision as prescribed under the ballot system.
  - (b) If any two of the three ballots for a contestant agree, that shall be the official place for that contestant.
  - (c) If all three ballots disagree, the Referee or his designate will evaluate all information and then determine the order of finish.
- (3) Place Judging The unanimous decision of the two (2) lane place judges as to placement takes precedence over official time in determining the order of finish in a race except where automatic equipment is used as outlined below.

**103.24. AUTOMATIC OFFICIATING EQUIPMENT**—No swimmer must ever be required to reswim a race due to equipment failure that results in unrecorded or inaccurate time or place results. Automatic and manual electronic equipment shall be backed up by any available equipment and/or human officials.

In any meet in which automatic electronic equipment is used, the following practices and procedures shall apply. No time may be used unless it is the official time using the procedures of this section. Split times recorded to the hundredths of a second by completely automatic equipment shall be acceptable for all purposes including records and qualifying times, provided that the swimmer completes the full scheduled distance of the event.

- (1) Description of Equipment
  - (a) Automatic—Timing that is started automatically by a gun or horn start and is stopped at the finish of the race by the swimmer's touch.
  - (b) Manual-Electronic Timing that is started by a common start to all lanes (either manual or with a fixed-delay from the start signal, set to be equal to the manual delay at the finish). The finish is recorded by buttons pushed by timers at the finish touch of the swimmer. This timing may be a primary system if there are three (3) buttons per lane, each operated by a separate timer. A secondary system may use one (1), two (2), or three (3) buttons.
- (2) Resolution (Timing Accuracy) Timing is recorded to hundredths of a second. Any digits representing thousandths shall be dropped with no rounding-off. Identical times to the hundredth shall be ties, with swim-offs as required, to determine qualifiers or alternates for consolation or final heats.
- (3) Equipment Location—The automatic equipment operators shall have an unobstructed view of the finish of the course.
- (4) Secondary Requirements It is required that the secondary system have a minimum of one (1) timer per lane. There must be at least one (1) manual watch per lane. If the secondary system is manualelectronic, the manual watches become a third system (a backup).

**Note:** An individual may simultaneously operate two dissimilar devices (one watch/one button), but not two similar devices (two watches or two buttons).

# (5) Comparison and Ranking Procedures

- (a) Placement and Ranking—When completely automatic or three (3) button manual electronic equipment is used as the primary timing, the placement and ranking of the swimmers shall be by integration of official times. The decision of human judges shall not be used for placement.
- (b) **Primary**—All primary times which are free of malfunctions shall be the official times.
- (c) Secondary—If there exists a time difference of .3 seconds or more (after correcting for a system timing error as described below, if required) between the primary and secondary (or backup) time in a given lane, a potential malfunction exists. If this potential malfunction is confirmed by other data such as; other watches or buttons in that lane; visual observation by equipment operators; or placement data by officials, the official lane time is the secondary time (after applying any required system timing errors).

### (d) Secondary System Timing Error

- (i) Determinination A secondary system timing error exists if all of the secondary times are faster (or all slower) than the primary times.
- (ii) Calculation The secondary system timing error is the simple average of the valid time difference between the primary and secondary times of the individual swimmers in a given heat. Any digits past hundredths are dropped with no rounding-off. This average is used to add (or subtract if appropriate) from the secondary time of a swimmer not having a valid primary time, to find that swimmer's official time. This time is then used for ranking and placing. (See the following example of actual data)

#### Example:

# **3-Button Manual Start Secondary**

Official Secondary Time (Lane 5) = 51.35 + .11 = 51.46

(e) Primary System Timing Error — When, through a start or other malfunction the primary system has a substantial and systematic error affecting the times of all lanes (but the relative order of finish is accurate) the determination of this error is made by comparison with accurate timing information (usually the lane manual watch times). This comparison and determination is done in the same manner as in the secondary system error calculations. The primary time for all swimmers is determined by adding (or subtracting if appropriate) this system error to the time of each swimmer in the heat. This preserves the order of finish, the relative time of each swimmer in the heat, and the accurate times of the full heat, so that integration and comparison with swimmers in other heats results in fair placement for all swimmers.

**103.25. ANNOUNCER** — Before the start of each event he shall announce the number of heats and the method of qualifying. At the start of each heat he shall announce the lane, the name of each swimmer and club affiliation or if unattached. Promptly after the finish of each event he shall announce the results as given him by the recorders. He shall make any other announcements as requested by the Referee, the clerk or the management.

**103.26. RECORDER OF RECORDS**—Shall obtain from the official recorders all times made in each event, including preliminaries and finals, shall have proper application forms and shall duly process all record claims as set forth in Article 8.

**103.27. RECORDERS**—There shall be two (2) recorders and the number of assistants deemed necessary to receive and record all times and all disqualifications for all preliminaries, consolation finals and finals of each event, and to furnish all pertinent information to the recorder of records, scorers, press, T.V., announcer and meet secretary.

**103.28. DOCTOR**—A doctor should be available at all competitions in case of illness or injury.

**103.29. PRESS STEWARD**—Shall obtain from the clerk of course and the recorders the names of all swimmers in each event, the results of each finish with times or record performances, and keep the press and TV personnel thoroughly informed on all details of the competition during the meet.

**103.30. MEET DIRECTOR**—Is appointed by meet sponsor. Responsibilities include, but are not limited to: ordering awards; obtaining sanction; preparation of facility; arranging for personnel, equipment, and supplies necessary for meet operation; processing of entries; printing of programs; arranging for appropriate publicity and media coverage; preparing and distributing summary of results 14 days after meet; and filing of LSC report.

**103.31. SMOKING**—Smoking is prohibited on the pool deck, in the locker rooms, in spectator seating or standing areas, and in all areas used by swimmers, during the meet or during the warmup periods in connection with the meet.

Opportunity shall be given for both the party lodging the protest and the party or parties charged to be heard.
  - (d) Unless the jury determines otherwise, the swimmer may compete under protest. An announcement to this effect shall be made prior to the race. The results of any race conducted under protest shall not be announced, nor prizes awarded, nor points scored until the jury has decided the protest or the protest is withdrawn, unless the protest would not affect the final scoring or awards.
  - (e) The decision of the jury shall be used for purposes of results, awards, and scoring the meet.
  - (f) The decision of the jury may be appealed by either party to the Board of Review, pursuant to Article 50. Protests submitted after the last day of the championships shall be submitted directly to the Board of Review.

Prior to the start of the meet, the vice president of the division shall appoint a jury composed of at least one athlete representative, at least one coach representative, and at least one other but not more than three other persons.

### (10) Scratch Procedure

- (a) Scratches prior to the seeding of heats shall be confirmed by properly filling out and depositing a scratch card in the scratch box, available at the general meeting prior to the first day's events and available at the pool for all subsequent days' events.
- (b) The scratch deadline for the first day's events shall be fifteen minutes after the general meeting is adjourned. The scratch deadline for all subsequent days' events shall be thirty minutes after the published starting time of the final session of each day's events.
- (c) In all events where preliminary heats are necessary, after the heats have been seeded, any swimmer who fails to compete in an individual event heat in which he is entered and from which he has not been scratched in accordance with (b) above will be barred from all individual and relay events of that day.
- (d) Any swimmer who competes in a preliminary heat and fails to notify the Referee that he may withdraw from the consolation final or final within 30 minutes after the announcement of the final qualifiers for that event and further fails to declare his final intention within 30 minutes following his last individual preliminary event will be barred from all subsequent competition during the meet, except that in the event of illness or injury and upon certification of the meet doctor, no penalty will be declared. In the event of such failure to show, the Referee shall fill the final with the next qualified swimmer(s), provided they are available and have not already competed in the companion consolation final. Alternates shall be announced along with the qualifiers, and shall not be penalized if not available to compete in the finals.

### (11) Seeding

- (a) In all national championships, the vice president of the Senior division or his designee and the members of the Senior division present at such championships, shall seed the swimmers. They may assist in, but not be responsible for, doing the clerical work.

  - (ii) All non-conforming times will be arranged in time order.
  - (iii) After arranging the times, the event will be seeded in normal fashion.
- (12) Swim-Offs—A swim-off is considered to be part of the total preliminary process of qualifying for the two finals. Exception: In the case of a disqualification in a swim-off the swimmer so disqualified is relegated to the lowest qualifying position for which they are competing. Disqualification in a swim-off for a qualifying position in the championship finals shall not eliminate a swimmer from eligibility to compete in the consolation finals. If the disqualification leaves a vacancy for the full complement of finalists, swim-offs shall be continued among the disqualified swimmers until a full complement of finalists is assured.
- (13) Consolation Finals
  - (a) In both short and long course championships there shall be a consolation final and a championship final. Both the consolation and the championship finals will have an equal number of swimmers, depending upon the number of lanes to be used.

- (2) Such entry blanks shall conform exactly to the standard format agreed upon by the Senior division, and no other shall be used.
- (3) One set of the entry blanks shall be sent by first class mail at least 30 days prior to meet closing date to all members of the House of Delegates, and to all unattached swimmers and coaches of teams that were entered in the two immediately preceding national championships (one long course, one short course).
- (4) The information booklet shall state qualifying times and procedures necessary for proof of entry times. (See 104.9)
- (5) The information booklet shall state that foreign swimmers must comply with all meet entry requirements.
- (6) The meet director's telephone number should be included in the information booklet.
- (7) Entry fees shall be \$5.00 for individual events and \$10.00 for relay teams.

- (10) The mailing list to be used under (3) and (9) above shall be maintained by the Executive Director and updated following each national championship with the assistance of the meet director of that meet.
- (11) It shall be the responsibility of the sponsor to ship the submitted entry blanks to the Executive Director immediately following the championships. Those entry blanks will be retained for a period of one year.

#### 104.7. ENTRIES

- Entry blanks properly filled out and received prior to the meet entry deadline will declare the swimmer officially entered.
- (2) In national short course and long course championships a swimmer may enter any number of individual events in which he has met the qualifying standard time, but he may participate only in the number of individual events equivalent to the number of days in the meet program, i.e., three individual swimming events and three relays in a three-day swimming program; four individual swimming events and three relays in a four-day swimming program; five individual swimming events and three relays in a five-day swimming program.

#### (3) Relay Entries

- (a) Relay entry blanks properly filled out and received prior to the meet entry deadline will declare those relay teams officially entered.
- (b) Organizations entering two or more relay teams in an event shall designate them on the entry blanks in alphabetical order as Team A, Team B, etc.
- (c) The time for each relay team shall be submitted on the entry blank and no change in time will be permitted. The time for each relay may be submitted as a composite or aggregate time. Relay teams with properly proven time will be declared entered and will be seeded at the proven and entered time.
- (d) Swimmers eligible to compete for an organization in relay events shall be all those listed on the entry blank for that organization.
- (e) Each coach shall pick up relay entry forms from the clerk of course on which he shall list the competing relay swimmers, their first and last names, ages, and order of swimming, for each entered relay. Upon reporting to the starting blocks, immediately prior to the start of the relay heat in which such team is entered, the completed relay entry form shall be handed to the head lane timer. No change will be permitted thereafter and failure to present the head lane timer with written list of relay swimmers shall prevent such team from competing. A runner shall be furnished to distribute copies of the listed relay swimmers to the announcer, press and T.V.
- (f) The competing relay teams and first and last names and ages of members thereof must be listed in the meet results.

# 104.8. QUALIFYING TIME STANDARDS

- (1) National qualifying time standards will be determined from performances at the respective short course and long course senior national championship meets for all swimmers.
  - (a) The average of the thirty second (32) place time achieved in the preliminaries of the two previous championships with the hundredth digit a constant .09, and not slower than the current

standard, will become the national qualifying standard for that event in the next like national championship meet for all domestic swimmers.

- (i) The above formula shall also apply to the U.S. Junior Olympic championship.
- (b) The sixteenth (16th) place time achieved in the preliminaries, with the hundredths digit a constant .09, and not slower than the current time standard, will be the qualifying time standard for that event in the next like national championship meet for all foreign swimmers.
- (c) The above formulas may be adjusted periodically based on recommendations from the time standards committee.
- (2) The Senior Division shall approve at each annual meeting the qualifying time standards for both short and long course championships for the following year.
- (3) The best times of all swimmers and relay teams must be listed on the entry card or blank. No changes in submitted times, corrections of events entered, or additional entries shall be allowed.
- (4) Any swimmer who qualifies for the 1000 or 1650 yard freestyle or the 800 or 1500 meter freestyle may enter at his fastest time or at the time standard, if entered in two or more events on the day of the distance freestyle. (For 1984 only, see Page 4)
- (5) Qualifying time standards shall be specified in hundredths of a second.
- (6) The Senior division reserves the right to challenge any submitted time.
- (7) Foreign swimmers may enter national championships provided they have met all qualifying requirements including submission of proof of entered times.
- (8) Entries for individual and relay events shall:
  - (a) Be submitted to hundredths of a second (100ths) only, unless recorded by manual watches in tenths (10ths) in which case a zero shall be added to the 10th recording.
  - (b) Be achieved in a relevant stroke/event; i.e., time achieved in a freestyle event can be submitted only as freestyle time, regardless of the stroke used.
  - (c) Be achieved from September 1 of the previous year and no later than the entry deadline date for the USS Short Course Championships.
  - (d) Be achieved from September 1 of the previous year and no later than the entry deadline date for the USS Long Course Championships.
  - (e) Be achieved in a USS-sanctioned or USS-approved meet or by one of the following modes if swum in full accordance with all applicable American and U.S. Open record rules as noted.
    - In a swim-off held to determine placement in a final event (108.2(4)(c))
    - (ii) As lead-off leg in a relay race. (108.2(4)(f))

- Split time recorded from the official start to the completion of an initial distance within a longer individual event. (108.2(5)(a))
- (iv) In a time trial. (108.2(4)(b)) and 108.3(1)(2))
- (f) Times achieved at an altitude of 5,000 feet or above may be adjusted as follows:

Event Distance	Time Adjustment
200	1.2 sec.
400 or 500	3.0 sec.
800 Free Relay	4.8 sec.
800 or 1000	12.8 sec.
1500 or 1650	30.0 sec.

- (i) Subtract the time indicated above from the actual time achieved at altitude. This is the time to be used on the entry blank. Information relative to the adjustment must be shown in a separate statement and returned with the official entry blank. The statement must include name of swimmer, event, date of performance, elevation location, actual time, corrected time and signature of coach.
- (ii) A swimmer or relay may use the above adjustments to meet the national qualifying time standard and seeding will be based upon the actual claimed time without regard for altitude adjustment.

### 104.9. PROOF OF ENTERED TIME

- (1) Short Course Championships
  - (a) Individual Events—All individual entry times must be made prior to the entry deadline and must be proven prior to the scratch deadline for that event through the Official Verification Card (OVC) system, or in the case of college, high school, and/or YMCA swimmers, from official meet results from conference championships or higher which have approval. Times made in college and other dual meets, if approved, must be certified through the OVCs. Such meet results must accompany the entry cards or blank with appropriate names and times clearly marked.
  - (b) Relay Events—Times for each entered relay team must be submitted on the entry form. This entered time must be proven prior to the scratch deadline for each entered relay team, in aggregate or as a team, through the OVCs, or from meet results described in (a) above, submitted with the entry forms. For the purpose of proving times, a swimmer may be named on only one relay team in each relay event. Once the relay team or teams have been proven, any swimmer listed by that organization on the entry form is eligible to compete on that relay team.

**Note:** Except for USS Junior Olympic Championship meets as provided in 104.3(1), the time of any swimmer recorded while legally representing a club within the appropriate time frame may be used in proving relay entry time and that swimmer does not need to be entered in the championship in question.

### (2) Long Course Championships

- (a) Proof of entered time procedure shall be the same as for the short course championships except that only Official Verification Cards (no meet results) will be accepted from USS member athletes.
- (b) Foreign swimmers not USS-registered must provide meet results with entry form to prove entry time.

**Note:** The above requirements shall be made a part of the official entry form for all national championship meets.

### (3) Responsibility Clause

# ARTICLE 6 AGE GROUP SWIMMING

### 106.1. THE AGE GROUP PROGRAM

(1) Objectives — Age Group swimming is the program through which United States Swimming provides fair and open competition for its younger members. It is designed to encourage maximum participation, provide an educational experience, enhance physical and mental conditioning, and develop a rich base of swimming talent.

Achievement of these goals will be enhanced by an environment which encourages participation by the maximum number of competitors, coaches, qualified officials, parents, and school and community groups. By providing recognition for all participants, a healthy motivation for self-improvement and advancement is attained.

(2) Program—The preparations for competition should include careful consideration of the demands made on all the participants, including swimmers, officials, and spectators. Meet facilities should include properly supervised, sheltered rest areas. The meet schedule should not be too lengthy (no more than eight hours a day) or late at night, and should contain generous rest breaks. These guidelines will help ensure an enjoyable and satisfying competition, as well as making a good introduction to swimming for newcomers. It is recommended whenever possible that a given age group be restricted to either morning or afternoon thereby further limiting the length of time for a swimmer to 4 hours or less.

Competition is separated by age group, sex, and ability to promote maximum achievement and recognition. Meets and/or events are usually structured to assure fair competition through the use of time standards, A, B, C etc. in which only swimmers whose best times correspond to the event's time standards are eligible for participation in that particular event. In this way a series of goals and achievements are available to the swimmer with a measure of success and progress at all levels but with no upper limit on success. Meets are identified as AA, A, B, B/C, or combinations of these ability classifications.

## 107.3. DIVING POOL

- (1) Preferred The pool should be separate from the swimming pool and 75 feet in length and 45 feet in width equipped with two 1-meter and two 3-meter springboards with guardrails and a diving tower providing take-off platforms at 5, 7 and 10 meters.
- (2) Acceptable The pool may be separate from or incorporated with the swimming pool. Dimensions and depth should meet the minimum standards and should be equipped with two-1 meter and two-3 meter springboards.

**107.4.** (\*) **END WALLS AND BULKHEADS**—The finished surfaces of the end walls and bulkheads for the competitive course shall be in parallel planes and perpendicular to the water surface for a depth of no less than three (3) feet measured below the plane of the perimeter overflow rim. There shall be no protrusions, light fixtures, underwater windows, or inlets in the three-foot planar surface defined herein. End walls should be finished with a non-slip surface. These specifications shall also apply to movable bulkheads, but with the additional provision that such bulkheads must be rigidly constructed to minimize distortion on impact, and must be equipped to insure locking at competitive distance settings.

**107.5.** (\*) **MEASUREMENTS AND TOLERANCES**—All measurements and tolerances must be interpreted to assure that the course, with automatic timing equipment in place, is not less than the required length: 50.00 meters for long course, 25.00 meters or 25.00 yards for short course.

The length of the pool shall be measured at the centerline of each lane at the water level (the plane of the perimeter rim overflow level).

The maximum variation from vertical for an end wall or bulkhead shall be 1/4-inch in the three foot planar surface. Construction tolerances shall not reduce the length of the pool under the required length.

**107.6. DECK**— The deck of the pool should be 6 to 12 inches above the surface of the water. Deck space on the diving end should permit sufficient space for installations of all diving equipment and additional area for the free movement of competitors and officials. The recommended minimum is 15 feet of deck area at both ends of the pool. The width of side-decks must be governed by usage anticipated. If this space is to be utilized for movable spectator bleachers or other seating, it must be wide enough to accommodate such seating plus sufficient area for free movement of space be allocated for spectator seating. If sufficient gallery space is allotted, side-deck width may be limited to 10 feet.

**107.7.** (\*) LADDERS — All ladders, steps or stairs should be recessed in the side pool walls or be easily removable during the competition.

**107.8.** (\*) **LIGHTING**—It is important that sufficient overhead lighting be installed. Concentration directly over turning end and finish line of one hundred (100) foot candles is recommended. Underwater lights may be installed at the sides and at the ends. End lights should be located under lane line anchors and 3'6" deep with a switch for each light. A power source for additional lighting should be available for use with television, movies and special events. Buildings housing indoor pools should not have deck level windows in walls facing pool ends. Deck level windows on the side walls should be the tinted type which reduce glare and reflection on the water surface.

At short course national championships, the same lighting to be used for finals must be used from warmups for the preliminaries through preliminaries to finals. At long course national championships, the same lighting to be used in finals must also be used in warmups for finals.

**107.9.** (\*) **POOL AND BULKHEAD MARKINGS**—Lines should be placed on pool bottoms to serve as guides for each swimmer and the color of these lines should be marked contrast (preferably black) to the general color of the pool. Such lines should be at least 10 inches wide and placed in the middle of each swimming lane. As these lines approach the end of the pool, it is recommended that distinctive T markings be placed on the bottom ending 60 inches (1.52 meters) from the end wall. It is recommended that target lines at least 10 inches wide be placed on each end wall of pool in the center of each lane, extending from the deck to at least four feet below the water surface. The top edge of deck level pools must be marked with a contrasting color to provide a visual target at the end of the pool. Lanes should be numbered from right to left as the swimmer stands facing the course. Each lane should be clearly marked so that it may be identified easily by officials stationed on the sides of the pool.

**107.10.** (\*) **STARTING PLATFORM**—The front edge of the starting platform must not exceed .762 meters (30 inches) in height above the surface of the water and shall be flush with the end of the pool for short course pools. The front edge of the starting platform shall be from .50 meters to .75 meters in height above the water surface and flush with the end of the pool for long course pools. The surface of the starting platform must not be less than .51 meters (20 inches) square and maximum slope toward the pool not more than 10 degrees from the horizontal. The top must be covered with a non-skid material. The lane number should be visible from all sides of the platform. Firm starting grips, flush with the end of the pool, for backstroke starts must be placed .3 to .8 meters above the surface of the water.

**107.11.** (\*) **OVERFLOW AND CIRCULATION SYSTEMS**— The overflow system is a method of conveying water beyond the perimeter overflow rim of the pool. It should guarantee the level of the water in the pool to be not lower than the overflow rim of the pool at all times. It should maintain a smooth quiet surface in the pool during competition. It should prevent the accumulation or overflow of pool water onto the deck area where meet officials work. It shall effectively skim the water surface at all times. The pool circulation system shall be turned off during the swimming of any event, if, in the opinion of the Referee, the resultant water movement interferes with the conduct of the competition.

**107.12.** (\*) **SOUND STARTING DEVICE**—An electronic sound starting device (rather than a gun start) shall be provided, with a speaker under every starting platform, or between every two platforms. It shall be supplemented by a strobe light, or similar optical signal, placed near the starter, to indicate the start visually to manual timers.

**107.13.** (\*) LANE LINES AND ANCHORS — Permanent provision must be made to anchor lane lines at the competitive water level in a recessed receptacle. Tightly stretched, easily visible floating lane markers, with floats joining to form a continuous cylinder marking the lateral limits of each lane, should be provided for all meets and must be available for championship meets. The color of the floats for 15 feet (in 25 yard pools) and 5 meters (in 50 meter pools) from each end shall be distinct from the rest of the floats.

**107.14.** (\*) **BACKSTROKE FLAGS, LINES, AND ANCHORS** — Permanent provisions should be made to anchor the backstroke flag line. At least three triangular pennants of two or more alternating colors must be suspended over each lane from a line fifteen (15) feet or 4.57 meters from each end of the 25 yard or meter course and 5 meters (16'5") from each end of the 50 meter course. The flag lines shall be seven (7) feet above the water surface in 25 yard course and 1.8 meters (5'11") in the 50 meter course. Pennants must be six (6) to twelve (12) inches in width at the base, and twelve (12) to eighteen (18) inches in vertical length. For long course pools, a firmly suspended line (without flags or pennants) extending the full width of the course shall be placed 25 meters from the finish end of the course at a height of 1.8 meters (5'11") above the water surface for all backstroke events, including individual medley and medley relay.

**107.15.** (\*) **RECALL ROPE**—Permanent provisions should be made to anchor the recall rope so that it shall be suspended at least 4 feet above the water at its lowest point. A recall rope may be available which may be dropped across the racing lanes approximately 36 feet from the take-off in case of a false start. A recall rope must be available for national championship meets.

**107.16.** (\*) **UNDERWATER SOUND RECALL DEVICE**—There shall be an underwater sound recall device provided at all national championships and international competitions, with operating controls located near the recall starter.

**107.17.** (\*) WATER AND AIR TEMPERATURES— The water temperature should be between 78 and 80 degrees Fahrenheit for competition and there should be adequate heating and/or cooling equipment available to maintain such temperatures. The air temperature at deck level in indoor pools should not be lower than 76 degrees Fahrenheit. Special consideration should also be given to heating and ventilation for the comfort of spectators as well as competitors.

**107.18.** (\*) **PACE CLOCKS**—There shall be at least two large accurate electric timing devices or clocks, preferably on each side of the pool, which must be at least three feet in diameter with one sweep second hand clearly visible to all of the swimmers.

**107.19.** (\*) **FACILITY AVAILABILITY** — The facilities for national championships are to be made available to the swimmers only and on a full-time basis, beginning on the day preceding the meet.

**107.20.** (\*) **AUTOMATIC TIMING AND JUDGING EQUIPMENT**—The use of approved completely automatic equipment limited in reading to two (2) decimal places (hundredths of a second) for timing and judging is required, which must be supplemented by a secondary power source in the event of line failure, plus proper backup equipment or personnel. Tape printouts of all results are required. An automatic scoreboard visible to all swimmers shall be required, giving a readout to two decimal places for each swimmer's splits and at the end of his race.

**107.21.** (\*) NO SMOKING – No smoking shall be permitted during the program in any designated area for swimmers prior to or during the competition.

# 107.22. (\*) SEATING REQUIREMENTS

- (1) USS Short Course Championships—Seating shall be provided for a minimum of 500 swimmers, coaches and managers. Seats for swimmers and managers shall be in an area where they can reasonably observe the meet. Coaches shall be seated with a good view of the finish and be able to see both ends of the pool.
- (2) USS Long Course Championships Seating shall be provided for a minimum of 3,000 persons including 800 seats for swimmers, coaches and managers. Seats for swimmers and managers shall be an area where they can reasonably observe the meet. Coaches shall be seated with a good view of the finish and be able to see both ends of the pool.

- (1) Types
  - (a) (\*) Automatic— Is activated by the starting device and stopped by the swimmer.
  - (b) Manual-Electronic May provide any combination of manual and automatic starting and stopping other than completely automatic operation, except that the combined use of manual start and automatic finish is not permitted for any competition.

# LONG DISTANCE SWIMMING COMMITTEE OF UNITED STATES SWIMMING

#### I. ADMINISTRATION

# (A) Organization

The chairman shall be appointed by the president. The committee shall recommend its choice for this position to the president for consideration. The committee is responsible to the Senior Division Vice President for the conduct and administration of the USS Long Distance Swimming Program.

The membership of the Long Distance Swimming Committee of United States Swimming shall consist of the following:

- A. One member from each of the Local Swimming Committees (LSC)
- B. One member from each Local Masters Swimming Committee (LMSC)
- C. One member appointed by the president of USS
- D. One member appointed by the president of USMS to coordinate Masters activities
- E. Past chairmen
- F. Members-at-large selected by the Committee

#### (B) Registration and Sanctions

- All Long Distance swimming athletes will be required to register with USS or USMS, and to conform to their respective codes, rules and regulations prior to competing.
- (2) Sanctions will be required for all Long Distance swimming events. LSCs are responsible for issuing sanctions for events involving USS athletes. Similarly, LMSCs are the responsible agents for issuing sanctions for events involving USMS athletes. If a Long Distance swimming event will have both USS and USMS sections, two sanctions must be obtained, one from each of the governing bodies. If both USS and USMS issue sanctions and swimmers from both groups compete, the race(s) shall be in separate sections. Under no circumstances will a USS athlete and a USMS athlete be considered part of the same competition.

# **II. DEFINITION**

Long distance swimming shall be defined as any freestyle swimming event over 1500 meters, normally conducted in a natural body of water; i.e., a lake, river, or ocean, although man-made pools, quarries and reservoirs may be used.

#### III. EVENTS

The long distance swimming events shall consist of individual or team competition as follows:

- Quarter-mile Straightaway The course shall be set in open water (A) and shall be a quarter of a mile (440 yards) straightaway using a cable with floats stretched between two pylons or platforms fixed stationary in the water. The distance between the anchoring points of the cable shall be maintained within plus or minus six inches, measured to the outer edge of the turning pylons. The course shall be swum clockwise, unless it is deemed unfeasible to do so by the meet director. No more than twenty swimmers shall be placed in the first or subsequent rows. If more than one heat is required, every effort should be made to swim a counter clockwise heat. A stationary water start shall be used. The starting position will be determined by seed time. Records will be maintained in this event. If a race is stopped and swimmers are removed from the water for their safety, the Meet Manager will not restart the race if 1/2 mile has been completed. The last recorded 1/2 mile time for each swimmer will be used to place finishers.
- (B) Open water distance events (includes rough water)—As surf, beach tide and temperature and other physical factors vary, the meet director shall determine the course for open water events. The course should be measured as accurately as possible, with the aid of navigational charts if possible. The meet director shall determine the type of start to be used. As course distances and conditions are different, no records will be maintained; however, meet managers are encouraged to keep meet results. The distances shall be the same for both men and women and may be contested at the same time with separate results tabulated. Age group and other classifications may also be swum at the same time, again tabulated separately.
- (C) Marathon-Type Events (Over Six Miles)-—The same considerations as stated in the above apply, except the event will be a greater distance in this type of event. The meet managers are encouraged to establish entry requirements that ensure contestants will have a reasonable chance of completing the events. Time limits for completion may be set. When the time limit expires, all swimmers in the water will be required to retire from the race.
- (D) Time/Distance Event (One hour swim for distance)— The object of the event is to determine who can swim the greatest distance in a given time period. The person swimming the farthest shall be declared the winner. The person swimming the second greatest distance shall be awarded second place, etc. In the event that two or more swimmers swim the same distance, a tie will be declared. The events shall be swum in a pool at least 25 yards in length. The distance shall be computed by multiplying the total lengths swum by the length of the pool and adding the last completed five yard

increment; if the event is swum in a metric pool, the distance shall be determined in meters and converted to yards by multiplying 1.0936 times the number of meters completed and rounding off the distance to the last completed five yard increment. All distances shall be reported in yards. When the event is contested as a postal meet, the results are sent to a central location for tabulation. Each entrant will be responsible for the validity of the figures and the distance submitted. There shall be an adult acting in the capacity of a starter/head timer/referee (may be one person) present at all times, having no other responsibilities during the period of the swim. For each swimmer, there shall be a separate lap counter who shall record split times for every lap during the swim. A stop watch shall be used to time the event.

- (E) Individual Long Distance Swims - Swims must be sanctioned and conducted by the appropriate governing body or its designee in accordance with all pertinent rules and regulations. All information relative to the swim shall be made public and available to any interested person at least three days before the event. If the event is to be swum in more than one LSC, the LSC where the attempt will start will have jurisdiction in issuing the sanction. This does not prohibit the other LSC from issuing a sanction for the event. If more than one swimmer is attempting to swim, only one sanction need be issued. All times achieved in long distance individual attempts shall be duly certified and made a matter of record by the appropriate governing body or its representatives. Further, a copy of the above should be sent to the National Long Distance Chairman who will be responsible for maintaining records of all attempts. The certification should include:
  - (1) Swimmer(s) name, age, sex and registration number.
  - (2) Governing body sanctioning the event.
  - (3) Course: to include name of body of water, starting and finishing points and measured distance.
  - (4) Verifications and documentation that all rules were observed and the swimmer(s) either completed or failed to complete or attain the distance.

All safety requirements must be observed and qualified medical assistance should be readily available during the attempt.

#### (F) Team Events

# A team event may be contested on a total time or point-system basis.

(1) Three contestants on each team shall be considered in the computations for team scoring. The team whose top three swimmers have the lowest cumulative time or the greatest cumulative total yards shall be declared the winner. A similar method will be used to determine second, third and subsequent places. In the event of ties, the team whose individual member finished nearest to first place shall be declared the winner or awarded the place.

- (2) Point Basis. Points are awarded on the basis of finishing position. One point for first place; two points for second place, etc. The points of the first five team members are added together, and the lowest cumulative score determines the winning team; the second lowest score, the second place, etc. In the event that two or more teams score the same number of points, the team that has the swimmer who won or finished closest to the first place shall be declared the winning team.
- (3) No individual entries can be accepted in the team events. All entries must be made by clubs and signed by an authorized official of the club making the entry.
- (G) Relays—Relay teams shall consist of six swimmers. The team members shall rotate in the same order throughout the event. The time each swimmer is required to spend in the water shall be specified on the entry form. The changeover to the new swimmer will be made as soon as is practically possible after the previous swimmer has completed his respective leg. In the exchange, physical contact must be made between the two swimmers.

#### IV. SAFETY PRECAUTIONS

- (A) Each competitor is strongly encouraged to have a complete medical evaluation before competing in any long distance swimming event.
- (B) As courses and conditions vary from location to location, the meet director will be responsible for establishing and enforcing safety standards necessary to ensure the safety of all competitors. Some considerations which *must* be explained and accompany a sanction request are: a) sample entry form, b) course maps, c) approvals of local jurisdictions (coast guard, park, county, etc.), d) plan for medical evacuation of swimmers, e) number, assignment and location of rescue/aid personnel and craft, f) rules for accompanying craft — if allowed, g) provisions for controlling other craft and swimmers on course, h) dayglow swim cap requirement, and i) safety briefing of all contestants.

Other considerations for event safety are: a) use of medical forms with entries, b) qualifying swims and times, especially in longer events, and c) use of two-way radio communications.

(C) A plan must be available for the event's cancellation because of safety factors. This plan must authorize the meet manager the authority to cancel, postpone, or impose other safety requirements as are deemed necessary. The meet manager's authority in this matter will not be contested.

#### **V. CONDUCT OF THE COMPETITION**

#### (A) Starts

- (1) Types
  - (a) Stationary—Swimmers will start from a platform, or if none is available, swimmers will start in the water from a dead still with no forward motion.

### APPENDIX D

### HEARINGS AND APPEALS

Following are two documents. The first is a guide explaining simply the procedures for expeditious handling of complaints and/or disciplinary hearings.

The second document is a proposed form for Notice of Hearing designed to ensure minimal due process.

Note that the system is designed to handle matters involving any individual and any entity participating in any activity of United States Swimming, Inc. (USS)—not just athletes, but coaches, managers, officers, club members, and all classes of members of USS or the LSC.

All such procedures should provide:

- 1) A swift and effective remedy for both complainant and respondent.
- A hearing by an objective body. Initially, this body is the Review Section of the LSC with no less than five elected members. (Section 571.2).
- 3) A several-step format (from the Review Section to the House of Delegates or the Board of Directors to the National Board of Review) which takes care of the vast majority of such cases at the local level, reducing the likelihood of time-consuming and expensive procedures at the national level (the importance of this will become more and more evident as athletes take advantage of streamlined processes under the Code and the USOC Constitution, to find remedy for their complaints). Article IX of the USOC Constitution provides an immediate remedy for the aggrieved athlete denied the right or opportunity to participate in international competition. He may bring his grievance directly to the Executive Director of the USOC who makes an immediate investigation of the matter. If the controversy is not then settled to the athlete's satisfaction he may take the matter to binding arbitration.

### **GUIDE FOR HEARINGS AND APPEALS**

### 1. Due Process

What is it?

If you were charged with an offense you would want:

- Notice, preferably in writing, of those specific offenses with which you are charged;
- An opportunity to defend yourself and a reasonable time within which to prepare your defense;
- (c) The right to have counsel represent you if you wish;

- (d) A hearing before a disinterested, objective body at a specific time under such circumstances as to give you full opportunity to present your defense; and
- (e) Notice of how to appeal the decision if it is against you. It is as simple as that.

### 2. Jurisdiction of the Corporation

Part Four of the Code (Section 450.3) provides that in those matters where athletes or other members of United States Swimming from more than one LSC are involved, or in matters involving such persons during a regional, or national or international athletic event, they will be handled at the national level. The officers assign the matter for investigation and report depending upon its nature.

### 3. Jurisdiction of the Local Swimming Committee

Part Five provides for two separate procedures:

- (a) Section 571.5 (1): Formal hearing.
- (b) Section 571.5 (2): Emergency hearing.

In both cases the Review Section of the LSC is responsible for initial procedure, unless the House of Delegates takes original jurisdiction for some reason.

### 4. Section 571.5 (1) Formal Hearing

Read the section. Note that it provides for all the elements discussed in Paragraph 1 above on Due Process. It applies to **any** individual and **any** entity participating in **any** activities whatever of the LSC or United States Swimming—not just athletes, but coaches, officers, committee chairmen, clubs and all classes of members as well.

(a) Review Section. The Section can have investigation made by an individual or special committee appointed by the Chairman for that purpose.

In the notice (sent by certified mail or personally served) set the hearing date for **not less** than thirty (30) days and **not more** than sixty (60) days.

If a disciplinary hearing, the notice should list the possible penalties that can be assessed (censure, probation, suspension for definite period of time, suspension with probation, suspension for life).

Request the respondent to answer the notice in writing to the Chairman, to be received by that officer no later than ten (10) days prior to the date set for hearing.

Decision must be made at the time of hearing or within twentyfour (24) hours thereafter.

Immediately send written notice of decision (by certified mail) to all parties concerned, including the complainant, together with a statement of facts as determined by the Review Section.

In the notice notify the parties that either may within ten (10) days appeal the decision to the LSC House of Delegates or to the Board of Directors and then to the National Board of Review.

You need not worry about strict court rules of evidence. Hearsay, letters, affidavits, new articles, and the like, as well as direct testimony from witnesses, is admissible so long as relevant to the issues and if not repetitive.

Use your common sense. Give proper weight to the type of evidence offered and consider the source from which it comes.

(b) Appeal. If an appeal is filed by either the respondent or the complainant, send out written notice at once to both parties containing exactly the same elements as required in Paragraph 1 above. The Board or House can act on the report of the Review Section as to its findings, or

The Board or House can have a whole new hearing if either feels the report of the Review Section is inadequate.

In most cases this is advisable and strongly recommended.

The same rules of evidence apply.

The House or Board can reverse, affirm, or completely modify the decision of the Review Section.

Once the decision is made send it out to all the parties concerned, notifying them of right of appeal within thirty (30) days to the National Board of Review.

The petition to the National Board of Review requires a filing fee of \$50.00. It must be addressed to the National Executive Director. (See Section 571.6 for procedure.)

### 5. Section 571.5 (2) Emergency Hearing

This Section tries to take care of the situation usually involving an athlete in which an immediate decision must be made. Notice may be oral or in writing, but, if oral, reduced to writing as soon as possible.

The Federal law states that an athlete cannot be suspended from competition, even temporarily, without a hearing.

For example, suppose a complaint is made at the site of an event that a particular athlete is ineligible to participate.

You should be prepared in advance to have one or more representatives, preferably three (e.g., the meet director, referee, and another official) conduct an immediate hearing, at the site of competition if necessary.

The decision can then be made regarding the eligibility of the athlete to compete, even if under protest.

If any one affected wishes a formal hearing later on, the matter can then be referred to the Review Section for full hearing under the provisions of Section 571.5(1).

Use your common sense in such situations. Give the athlete the benefit of the doubt.

### APPENDIX E REDISTRICTING PROCEDURE

- Change in LSC Club Affiliation. If a club wishes to change from one LSC to another LSC which is contiguous and where no other club geographically intervenes, and if by two-thirds (2/3) vote the House of Delegates of each LSC approves, such transfer shall be effective ninety (90) days after receipt of written notice by the national headquarters.
- 2. Change in LSC Territory. If the majority of a substantial number of clubs in a contiguous area within an LSC wish to affiliate with a neighboring and contiguous LSC, and should the House of Delegates of each LSC by a two-thirds (2/3) vote of those members present and voting in a regular or special meeting of each, or by mail vote by a majority of those members of each House of Delegates eligible to vote, approve the change, the change in territorial jurisdiction shall include all clubs in the area and shall become effective at commencement of the next succeeding fiscal year of the Corporation.
- 3. Formation of a new LSC. If a substantial number of clubs in a contiguous area within an LSC wish to form a new and independent LSC, and should the House of Delegates of the LSC, by a two-thirds (2/3) vote of those members present and voting in a regular or special meeting or by mail vote by a majority of those members eligible to vote, approve the change, the proposed formation of the new LSC shall be submitted to the Chairman of the Redistricting Committee. Such request must be received by the chairman prior to April 1. The committee shall make a recommendation in the form of legislation, if appropriate, and submit to the Legislation Committee for publication and submission to the House of Delegates for its approval or disapproval. Should approval be granted, the formation of the new LSC shall become effective at the commencement of the month following the meeting or October 1, whichever is earlier.
- 4. Change in Zone Affiliation. If an LSC by a two-thirds (2/3) vote of those members present and voting at a regular or special meeting of the House of Delegates or by mail vote of a majority of those members eligible to vote, approves a change moving the LSC from one Zone to another, that change shall become effective at the close of the next USS annual meeting unless that change is rejected by either of the two Zones involved, or the Redistricting committee. Such rejection may be appealed at a public hearing of the Redistricting Committee. It shall be the responsibility of the Redistricting Committee to submit such legislation necessary to implement the change.
- 5. Application. For each category of change listed above, the proponents must request an application for change from the national office. The application shall contain the name of the proponent, the name(s) of the club(s) involved, a record of the vote(s) of the LSC(s) and the

signature(s) of the general chairmen involved. The application will include a summary of the rationale for the proposed changes. The completed application should be forward to the Redistricting Committee. If a majority of the committees approves the application, the matter will proceed as in 1, 2, and 3 above. If the majority disapproves, proponents will be notified and the matter will be brought to public hearing at the next annual meeting. A recommendation will be forwarded to the Legislation Committee for presentation to the House of Delegates for final approval or disapproval.

6. **Review.** Should the House of Delegates of any LSC mentioned in subsections (1), (2) or (3) above disapprove of the proposed changes the proponents may submit the matter to the Redistricting Committee of the Corporation at least one hundred (100) days prior to the next regular or special meeting of the Corporation. The Redistricting Committee shall study the proposal and make recommendations in the form of legislation for submission to the USS House of Delegates at its next regular or special meeting where a final determination will be made.

1984 NATIONAL AGE-GROUP TIME STANDARDS

Long Course Meters

These standards are based on the 16th best time listed in the national age group 16 best times tabulations. The base time is revised whenever the best times lists show a faster 16th best time.

The calculation of the times listed are as follows: AAA = 105% of the base time; AAA = 110% of base; AA = 115%; A = 120%; B = 130%. Example: 11-12 girls 100 meter freestyle base time is 1:01.99, from the 1984 top 16 times. The national 'A' time is 1.20 x 1:01.99 = 1:14.39.

The 10 & under age group has been modified by varying the change rate from the standard 5 percent. The rates for this group vary from 4.5% to 7% for different strokes. Also, the 'B' standard is one increment slower. (i.e. 100 free 'B' time is 135% of base.)

### **NOTES:**

## Help keep swimmers swimming.

"You know, it takes a lot more than dedication and determination to develop Olympic and Jr. Olympic hopefuls. It also takes coaches, facilities and equipment. Swim-a-Thons help make this possible.

Of course you can always use the money to hire a good coach like me. After all, who do you think teaches frogs how to swim?"

### COMPETITION

The years of coaching, encouragement, effort and dreams, are tested here. And each of us will be shown a lesson that reaches a long way past the edge of the pool. To give your best is the real victory. Phillips Petroleum has sponsored United States Swimming since 1973, and is committed to continue that support. For the spirit of this competition touches the lives of everyone.
